Playground Superscoops

To: Park Commission / Town Board
From: Jerry Wagner
Re: Pioneer Playground Superscoops
Date: February 6, 2012

Town staff would like the Park Commission and Town Board to approve the purchase of two Superscoops for the Pioneer Park playground. The two Superscoops we have in the playground are in need of repair upon inspection in 2011. Gerber Leisure Products inspected them as well and quoted us a price to fix both. The Town budgeted \$1,398 for this maintenance item in the 2012 budget. Please review and approve the quote for \$1,373 from Gerber Products to fix these two pieces of playground equipment.

RE: Superscoop retro-fit and standard for Pioneer Park

Jerry,

The pricing has gone up 3% since last August. The new pricing is reflected below.

There are a few ways to go. You can get a retro fit scoop for the standard scoop you already have. It would allow you to use the existing footing and simply replace the top mechanism. There is also a retro kit that besides using the existing footing, you could also use your existing seat. Those costs are as follow:

124015B Retro Kit for Standard Superscoop, with new seat and bearings, no footer
Total Cost Delivered \$608.00

124015A Retro Kit for Standard Superscoop, new bearings, no seat and no footer
Total Cost Delivered \$556.00

There is not a standard Superscoop retro kit that will fit on the surface mount footing that you currently have under the Accessible Superscoop. If you wanted to replace the Accessible Scoop with a standard Superscoop complete with direct bury footer, the cost follows. I also have a cost for a Standard Superscoop with a direct bury footer with no seat in case you have an extra seat from an old scoop. Those costs are as follow:

123831A Standard Superscoop, direct bury footer, complete with seat
Total Cost Delivered \$765.00

123831mod Standard Superscoop, direct bury footer, no seat
Total Cost Delivered \$680.00

These prices are for 2012 only. Please let me know if you have any questions. Lead time is approximately 2 weeks or less.
